

## About Our Company

BCC Group was established in 1997 in Azerbaijan as a contracting company providing construction services. Currently, it incorporates a number of rapidly developing companies operating in many countries. BCC Group is one of leading contractors offering clients a large range of services including engineering, procurement, construction, commissioning, installation and maintenance for civil and industrial construction projects in oil and gas industry, as well as steel fabrication, construction and installation of modular buildings. We are also one of the largest providers of services, supplies and equipment in the Caspian region with a special emphasis on the needs of construction and oil and gas sectors.

Companies incorporated by BCC Group:

- BCC Group, Azerbaijan
- BCC Kazakhstan LLP, Kazakhstan
- BCC Group LLC, Russia
- BCC General Trading LLC, UAE
- BCC-6, Iraq
- BCC Group LDA, Mozambique
- Caspian Group Angola SA, Angola (JV)

## Our Fundamental Values

We adhere to the highest international standards and apply up-to-date technologies and practices in our work. We build our operations upon the following fundamental principles to meet our customers' high expectations and demands:

- Health, safety and environment are our strict priority
- Quality control and assurance
- Delivery within agreed schedule
- Flexible prices and cost-effectiveness
- Individual approach to every client

Following these principles, we deliver projects in time within agreed budget, while maintaining high quality of our products and services. Our professional expertise has been confirmed by certification in the ISO 9001:2008 standards (Quality Management Systems). The approved scope of work includes:

- Design, building and construction
- Metal fabrication and installation of metal constructions
- Trading

## Our Capabilities

Our turnkey capabilities encompass resources, experience, technology and fabrication capabilities enabling us to deliver services from the project design to commissioning. Our major fields of expertise include engineering, procurement, construction, installation, maintenance and electromechanical works, prefabrication and fabrication of metal constructions and modular buildings.

### Engineering, construction and installation

**Design, engineering, procurement, construction and installation:** during design stage of every project, our team of highly qualified multidisciplinary engineers offers our customers innovative and cost-effective solutions, while using best world practices and developing our own fabrication capabilities.

BCC Group has extensive experience in design, construction, installation and commissioning of structures for oil and gas industry. We have developed particular expertise in construction of heavy foundations, machine bases, tubular and sheet steel piling, jetties and quays.

**Steel fabrication and installation of metal constructions:** BCC Group performs fabrication, installation, maintenance and disassembling of general metal structures and equipment including multiple columns for warehouses, scaffolding, water tanks, transit mini containers, gas racks and rubbish skips. We also have wide experience in the installation and commissioning of various equipment such as gantries, buoys, bollards and fenders. Our fabrication workshops are fully equipped with facilities to machine (including cutting, bending, rolling and milling) metal plates, beams, columns and pipes of any size and thickness according to stipulated design.

**Prefabrication and installation of modular buildings:** BCC Group's fabrication capabilities encompass prefabrication, installation and maintenance of modular buildings including houses, offices, storages, dining halls, guesthouses, clinics, bathrooms and various public and community facilities, to name a few. Prefabrication and installation operations are carried out either at our own fabrication yard or any area provided by the client with the use of polyurethane, rockwool, fiber cement, sandwich panel and other modern building materials to serve environmental and operational conditions of the structure. Our production facilities allow us to fabricate and install structures of any size and complexity depending on the project requirements.

## Material, equipment and services supply

Many years of successful activities and long-term cooperation with local and international production companies around the world enable BCC Group to play a leading role in providing supplies and services to various branches of industry including construction and oil and gas sectors in the region.

BCC Group has developed close long-term business partnership with world-known manufacturing companies such as, e.g., **BOGE Kompressoren, NETZSCH Pumpen, ABB, Raychem, Siemens, NOV, 3M, Bentec, EATON, Divex Global, Weir, FMC, PIRAZIZ I.S.S, OEG Offshore, Superior Products, General Board System MMC, Goknur Baki MMC, Cebo Holland, Elkem Oilfield Chemicals, STAHL, John Crane, Ingersoll Rand, Detroit Diesel, ZMS Cable and Cromwell.**

**Supply of materials and equipment:** BCC Group provides hydraulic, lifting, electrical and electromechanical equipment, pipes, fittings, safety devices, construction materials, electric motors, generators and pumps as well as various tools, machinery and spare parts. Working directly with many manufacturers, we guarantee that we supply products of highest quality at competitive prices. We also maintain a wide assortment of materials and equipment in stock and are able to deliver them on our clients' demand at short notice.

Qualified personnel working in our representative offices in Russia, Turkey, UAE and China maintain direct contacts with manufacturers in these countries to ensure delivery of high-quality products in time and processing of materials, if necessary, prior to their shipment to customer.

**Services and maintenance:** We are distinguished by providing a full range of services which include installation, technical support, maintenance, inspection and repair of supplied products. Comprehensive and integrated services offered by BCC Group give our customers tangible advantage in utilization and operating efficiency of tools and equipment.

## Our clients

BCC Group has provided services to, and developed long-term cooperation with, more than 40 international leading companies in Azerbaijan, Kazakhstan, Russia, Turkey and Turkmenistan including **BP, Schlumberger, Halliburton, Baker Hughes, Petronas, Keppel FELS, AGIP, SOCAR, AIOC, McDermott, Technip, Saipem, Dietsmann, CNIM, LUKOIL** and **Petrofac**.

**Schlumberger**

**HALLIBURTON**

**PETRONAS**

**Keppel**

**Technip**

**ENIM**

**LUKOIL**

**Petrofac**

## Our projects

Our business reputation is based on the success of more than 300 fast-track and complex projects performed by BCC Group in 2003-2015. We are justifiably proud of the works performed by our company for world-class AIOC's projects such as development of the Azeri-Chirag-deepwater Gunashli fields in the Azerbaijani sector of the Caspian Sea and Sangachal Terminal Expansion Program

BCC Group also performed works for development of Shah Deniz field in the Azerbaijani sector of the Caspian Sea – one of the world's largest offshore natural gas field, operated by BP.

We also completed significant projects under contracts to Keppel FELS. The scope of work included engineering, supplies, construction and commissioning of various structures for the company mooring in Azerbaijan and Kazakhstan.

BCC Group is continuously expanding geography and spheres of our operations, striving for successful implementation of our clients' projects of any size and scale.
